

WATER TREATMENT SOLUTIONS FOR EVERY FACILITY.

OPTIMAL BUILDING PERFORMANCE.™

 **AIR FORCE ONE®**

CUSTOM WATER TREATMENT SOLUTIONS FOR YOUR FACILITY.

WITH SPECIALIZED EXPERTISE AND MORE THAN 30 YEARS OF EXPERIENCE, WE DELIVER INNOVATIVE, TAILORED SOLUTIONS THAT KEEP BUILDINGS PERFORMING AT OPTIMUM LEVELS.

Through our Total Cost of Ownership approach, we partner with you and your team to identify problem areas, define water treatment goals and achieve safe & efficient water performance objectives. **From our flexible maintenance agreements to on-site, full-time technical staffing, we optimize facilities through:**

WATER TREATMENT SOLUTIONS: Customizable, turnkey solutions to manage your facility's water treatment for your hydronic mechanical equipment and piping.

CHEMICAL AUTOMATION: Monitor your facility's chemical levels, with the unique ability to adjust and enhance all of your required chemicals through our advanced controls.

MECHANICAL SERVICES: The knowledge, technology and project teams to minimize downtime and maximize productivity across your systems.

PROACTIVE MAINTENANCE: Regular assessments and inspections ensure that building systems are optimized to provide equipment longevity and maximum efficiency.

ENERGY CONSERVATION: Sustainable energy solutions can reduce costs within individual buildings or across campus facilities.

COOLING TOWER SERVICES: Increase performance and decrease downtime with cost efficient cooling tower maintenance and cleaning.

AIR FORCE ONE IS MORE THAN A SERVICE PROVIDER. OUR SERVICE & PROJECT TEAMS DELIVER COMPLETE FACILITY SOLUTIONS THAT IMPROVE YOUR BUDGET THROUGH:

- + **PARTNERSHIP:** As an extension of your team, we take ownership, working with facilities to deliver efficient, comprehensive solutions that realize economies of scale and cost savings.
- + **RESPONSIVENESS:** Our teams understand what a downtime scenario means to you, your facility and your staff, so we root out issues before they occur.
- + **PERSPECTIVE:** We deliver comprehensive solutions to our customers, gaining valuable insight and sharing best practices along the way.
- + **BUDGET MANAGEMENT:** Monitoring your systems continually creates the opportunity to plan for repairs or replacements, finding or creating space within tight budgets.

WHAT WE DO:

We work with clients to partner in a customized water treatment plan that will act as an effective defense against key contamination issues such as biological growth, concentrated mineral content, scaling and white rust formation.
